YOUR FRAUD AND ABUSE MATURITY LEVEL RESULTS:

Level 5: Optimizing

Level 1: Initial

Revenue optimization maturity is at the lowest level. Processes are manual, unpredictable and reactive.

Risk & Cost

Level 2: Repeatable

Revenue optimization maturity is low. Processes are generally reactive.

Level 3: Defined

Revenue optimization maturity is average. Processes are defined, but frequently require manual intervention.

Level 4: Managed

Revenue optimization maturity is high. Processes are measured and generally automated.

Level 5: Optimizing

Revenue optimization maturity is at the highest level. Processes are automated and scalable. Focus is on process optimization.

Revenue Generation Through Increased Conversion
